---

## IN YACHTING HUBS AROUND THE WORLD

These should take place every 2 years, and even more regular if you have previously had abnormal test results.

\*Abnormal test results are **VERY COMMON**, so do not be afraid if you get these back. You will most like have to have a Colposcopy which is a quick and painless procedure, essentially, a slightly longer smear test.

Remember you are not alone, we are all women and we are all in this together.

# USA

## *Savannah*

---
